DANCE OF SOULS - READY TO WEAR COLLECTION 2014

DESIGN BY CANSU İNÇESU

Dance Of Souls is a world, where the souls of men, women and nature are completing each other. In urban life, we tend to overlook nature and our souls are forgetting that men cannot be separated from nature. Everything in nature has a soul and its spirit is the gateway of emotions. Just seeing a wild tree, a spider web and a dandelion is not enough - if we really feel their souls, we can include them in ours.

Dance Of Souls allows the forgotten spirit to blossom again inside us. We can rediscover ourselves in the nature of our souls with the synthesis of haptic sensation that is created by silk, cotton yarn and leather - all materials which are entirely natural. The contrasts, similarities, strengths and weaknesses in the soul of nature and mankind are forming a common soul within the Dance Of Souls. Souls cannot be figured out exactly, they can only be felt. We can reach our souls - our essence - by living this mystery. Everything in this world is black and white as if it almost wants to prove the presence and the absence of the souls. You are invited to a world where anything visual disappears and the souls swing freely.
